**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-19, drawn to a multichannel catheter.

Group II, claim(s) 20, drawn to an obturator useful for slidably inserting into a blood-flow catheter.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to a multichannel catheter for delivering extracorporeal blood, the special technical features comprising a central, first channel closed at the distal end, a second channel open at the distal end, a plurality of openings communicating with said first channel, an inflatable bladder, a third channel and a solid flexible shaft slidably engageable into said first channel. Group II is directed to an obturator, the special technical features comprising a shaft made of medical grade polymeric material having a length of 40-120 cm, a diameter of less than 28.2 French, a Durometer of about 40A to 90A and having a design to snugly and slidingly fit into a blood flow catheter to block flow through the channel.

Art Unit: 3763

A telephone call was made to Tom Moran on 28 September 2003 to request an oral election to the above restriction requirement, but did not result in an election being made because Mr. Moran was on vacation (per Hannah, his secretary).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
